

Reformed Tastes

from around the world

The ministry of Nyimba CCAP aims to provide spiritual, physical, mental and social development in our community. This simply tells us that our emphasis is on holistic approach which promotes and upholds Christian values, spirit of good stewardship in which we work. This is done through the Community Health Evangelism/Education (CHE) programme which we run as a church. CHE teaches the community on Health and Evangelism education.

Our goals are:

- To bring people to know Christ as their personal savior and friend
- To proclaim and teach as stated in Matthew 28:16-20
- To unify everyone regardless of one's race, culture, language and class
- To promote people's participation in the church and society
- To protect them from exploitation
- To see the church and society in which we exist grow numerically and in maturity dynamic and spiritual leadership at all levels.

In doing this we glorify God and all people are blessed in all aspects of life

From Rev Kelly Bwalya
Parish Minister for Nyimba Church
Central Africa Presbyterian Synod of Zambia
