

Application for Subsidies Eligibility

These constitute the basis on which subsidies will be considered:

1. Subsidies to member church delegates are provided to ensure fair participation of delegations of WCRC member churches that are composed according to constitutional requirements. In view of the limited resources available, member churches should first ensure that all other avenues of support have been explored.
2. There is eligibility for subsidy where:
 - it is understood that there would be difficulty in financing the full participation of the delegation;
 - the membership contribution from 2017 to 2023 has been paid;
 - a request for a reimbursement has been made to the General Secretary by the due date (initially by 31 July 2024, but at the very latest by 31 December 2024).
3. Priorities for the allocation of a subsidy will be in accordance with the following criteria:
 - Churches whose delegations conform to the constitutional criteria regarding women, youth and lay persons;
 - Churches which have paid membership contributions from 2017 to 2023;
 - Churches which have committed to paying the 1,000 euros for each delegate (300 euros registration and 700 euros contribution towards participation);
 - Paid travel, accommodation, and registration fees for at least one delegate.

If you think you meet these eligibility and priority criteria, then you may apply by using the form attached.
